Plus a set of complimentary 5x7 inch matted prints.

Lifestyle

FAMILY SESSION

WEEKENDS
\$150

.....

This relaxed family session takes approximately 1-2 hours. It can be done in the studio or on location. The style of photography is very casual and unposed, as I feel the best images are taken when your family is less aware of the camera. In this way we capture more natural moments between you instead of directing you to look, speak, or pose yourselves in certain ways. There is no need for 'acting' or 'pretending' when it comes to loving your children - that comes naturally.
During the session I will photograph every combination from your child/children individually to together, and with each parent as well as a whole family.

This fee does not include digital images, prints or products
Minimum Gallery of 20-30 images.

Frequently

ASKED QUESTIONS

WHAT SHOULD WE WEAR FOR OUR SESSION?

What you wear for your session is very important. It will make a big impact.
For visual balance you can co-ordinate, such as all in tones of blues, blush, or all neutrals; but please DO NOT all wear the exact same thing. Relaxed shots will be more authentic if you are in comfortable clothing.
Wear colours you loved or outfits you get compliments in.
Solid colours, subtle prints and classic casual clothing are always complimentary.
Try to avoid big logos with lots of colour variation as they can be visually distracting and date quickly.
Simply, clothing that are in a similar tonal range results in a more pleasing portrait, ensuring that one family member does not stand out more than another.
You are more than welcome to bring along a selection of outfits to change into so to vary the look of your portraits.
If you would like to visually see some suggestions, you can head on over to my "what to wear" board on Pinterest.

SHOULD MAKEUP BE WORN, & HOW MUCH? DO YOU OFFER HAIR & MAKEUP SERVICE?

Make-up should be used to highlight features and contours of your face.
Foundation should be smooth and provide an almost flawless finish, lip colour should appear slightly darker than your skin tone.
If you would like your hair and make up professionally done, I can organise for a local hair and make up artist to come to the studio before your session. This is an additional cost.
A deposit will be required to secure this booking.

WHEN SHOULD I HAVE MATERNITY PHOTOS?

This is a special time in your life where only you have that unique bond with your growing baby, one that no one else can feel, through the magic of a maternity session you can capture that feeling.
Maternity photographs can be taken in a modern, tasteful and relaxed setting.
It is best done in early to mid third trimester (28-36) to show off your amazing bump in all its glory. I also have a few nice flowy materials and maternity gowns for you to use if you wish.

WHEN SHOULD WE DO NEWBORN PHOTOS?

The new addition to your family will only be newborns for a short period! And you will want to capture that brief moment in time!
I love to photograph newborns as early as possible. Within 7-10 days as they are still lovely and sleepy and easy to curl up.
Our next best option is before two weeks. Please try to schedule your newborn session while you are still pregnant.
This way we can "pencil" in a tentative date. Obviously, expected due dates can vary greatly, but at least I can have a rough idea of when.
Once you do give birth, we can confirm a final date.

CAN MY PARTNER OR CHILDREN BE INCLUDED IN MY MATERNITY OR NEWBORN SESSION?

Yes! I really recommend having some photos that include you together. This is a special time for them also.
However attendance at photo sessions is limited to those being photographed. In the case of children and newborns, attendance is limited to two parents only. Please do not bring Grandparents, nannies, caregivers, or friends not being photographed.
Having additional people present can be distracting to both the photographer and to those being photographed.

HOW LONG AFTER OUR SESSION DO WE GET TO SEE OUR IMAGES?

Your images will be available approx 2 weeks after your session. Once your images are captured, we narrow them down to the best and then go through and soft proof, such as colour correct, tonally adjust and adjust exposure (if needed). While I know it is difficult to wait, all work is performed in order of service, and can be impacted by the volume of clients seen in a given period so if there are delays please know that I will do my best to get it to you as quickly as possible.

DO WE RECEIVE A USB WITH THE IMAGES, OR DO WE HAVE TO SCHEDULE AN ORDERING SESSION?

After your gallery is ready we do a viewing session. At this appointment there is the option to just order the USB with all final images on it. Due to the custom nature of the products and services provided by Melissa Montagiani Photography, all sales are final once received and items can not be returned. You may add to your order at any time, but a sale is considered final at the time the order is made.

HOW LONG AFTER WE PUT OUR ORDER IN DO WE GET OUR PRODUCTS?

Payment is due in full before any order will be placed. Once the order has been placed it takes about 4 weeks for prints and products. Albums can take up to 8 weeks.

WHAT KIND OF PAYMENT OPTIONS DO YOU HAVE?

Payments can be made by cash, eftpos/credit card, or direct deposit.

DO YOU OFFER PAYMENT PLANS?

Yes! I have Afterpay or take home direct debit lay-bys that can be paid over 6 or 12 months.

If you have any other questions you would like answered feel free to call or email me!
